

33rd Student Yachting World Cup

Are **YOU** ready to be the next
CHAMPION?

Take part in the next Student Yachting World Cup (SYWoC)! Every year, top-level student crews from all over the world gather in France for a one-week long competition organised by the students of *École Polytechnique*. Each crew, representing its country, will compete to be crowned the World Champion. This year, the 33rd edition of SYWoC will take place in the beautiful city of Pornic between the 25th October and the 2nd November.

So if you're a sailing-addict, or are thrilled by the challenge of becoming the next World Champion, or just want to hang out with students from all around the world while having fun, don't hesitate! Form a crew and get ready for SYWoC 2013!

A world-class Championship

Certified by the ISAF, the SYWoC is judged each year by an international jury which is tasked with refereeing the regatta. You can count on their fairness and unbiased judgement.

École Polytechnique has had a long history of organising the SYWoC every year since 1979 and we have never disappointed the participating students. This competition is well-established and we can now count on the teams representing their countries to give it their all and to bring out the full meaning of the SYWoC trophy.

An entertaining week with international students

The SYWoC is a competition organized exclusively by students, for students. Spend a week with us immersed in an incredible environment modeled after the Olympic villages, created by over 200 students living, competing and partying together.

During your stay with us at Pornic, you will meet students from all over the world who share your passion for sailing. Prepare to be thrilled beyond your expectations and to have fun with them: we guarantee your stay will be an unforgettable experience.

How to Apply?

Form a crew of five or six students with at least half from the same university and with at least a member of each gender. The team which represents your country will be chosen on the basis of its national or international races, as well as on advice from sailing federations.

This year, the J80s will be used for the competition.
